GTX Europe, Ltd. Announces GTXRaster CAD® 2021 Series for BricsCAD® V21

Basingstoke, United Kingdom – November 20th, 2020 GTX Europe, Ltd., the leader in providing *Intelligent Paper to CAD Solutions®* in raster editing and conversion software and intelligent digital imaging solutions, today announced the newest release of its popular **GTXRaster CAD® 2021 Series for BricsCAD V21**. Developed by Bricsys with its European Headquarters located in Gent, Belgium, BricsCAD provides 2D and 3D direct modeling CAD features such as .pdf import, block editing, and data linking while supporting DWG/DXF/DWT and non-DWG formats at a highly competitive price.

The new **GTXRaster CAD 2021 Series for BricsCAD V21** enhancements and features include:

- **Fully compatible** with BricsCAD Pro & Platinum v21
- **Support for Microsoft® Windows® 10 and Windows® 8.0/8.1 operating systems only**
- **Improved PDF support**, open and save a color or black and white PDF file – once open, the files can be edited and then saved to a .dwg, .TIF format or a PDF
- **Improved User Interface** with enhanced Icons, Ribbons, and Toolbars which incorporate the new Light and Dark Environments of BricsCAD V21
- **Reengineered Rasterization Engine** supports the latest CAD entities including blocks with attributes, angled text, and geometry
- **New Installation** for Windows 10, Windows 8.0/8.1 and Windows 7 PCs to alleviate any security permission issues
- **Improved Licensing - Package and Borrow** facility options for Network Flex LM licensing.
- **22+ Raster editing commands** — including raster snap modes
- **Updated Software licensing** – FLEXENABLED™ using Flexera® FLEXnet Publisher for either standalone single-user installation or multiple users with networked installation
- **Automatic Image Cleanup** — noise removal and deskew (U.S. Patent No. 7,016,536)

In addition, the new GTXRaster CAD 2021 Series products are optimized and tested to run in BricsCAD V21 utilizing the full advantage of the performance and other improvements for this latest environment. With the GTXRaster CAD 2021 Series for BricsCAD V21 being fully ported to the 64-bit platform, it can run as a native 64-bit application directly on the Microsoft® Windows 64 bit Operating Systems.

"We are excited to release our flagship GTXRaster CAD Series products on the BricsCAD platform, providing our solutions to Bricsys customers and dealers worldwide at a very competitive price point," stated Andrew Ling, President and CEO. "Our newest version, the GTXRaster CAD 2021 Series, allows users to take advantage of the newer Microsoft® Windows 10, 64-bit operating systems, Improved PDF support, Package and Borrow Licensing options for their network environments, and much more. This software provides our customers with the most economical way to manage their archival files with ease," Mr. Ling added. The GTXRaster CAD 2021 Series includes two product modules — GTXRaster CAD® and GTXRaster CAD® PLUS.

The GTXRaster CAD 2021 Series, the "BricsCAD for Raster" provides image enhancement and cleanup tools, as well as raster and hybrid editing, Raster-to-Vector conversion, and Intelligent Character Recognition. They are available as a plug-in for BricsCAD v21 Pro (and higher) release.

Complete details regarding the GTXRaster CAD 2021 Series Products are available through GTX and their Authorized Distributors and Dealers.
