-- More --

Consisting of GTXImage CAD and GTXImage CAD *PLUS*, the new GTXImage CAD™ Series, Version 14.0 products combine the best of both worlds; the GTX image clean-up, raster and hybrid editing, raster-to-vector conversion and Intelligent Character Recognition (GTXICR™) along with the AutoCAD OEM engine for the high quality AutoCAD 2D drafting tools and guaranteed 100% compatibility with the latest DWG/DXF and other AutoCAD formats.

Andrew M. Ling, President and CEO of GTX Corporation, stated, "The new GTXImage CAD™ Series, Version 14.0 products will streamline the design processes for new and existing GTX customers. Our software eliminates labor-intensive and error-prone manual processes while managing archival files. The GTXImage CAD Series, Versions 14.0 increases design productivity, speed, and flexibility, without the need to run a separate license of AutoCAD for raster editing and raster to vector conversion." Andrew Ling continued, "We are pleased to continue our 27-year tradition of providing our customers with the most cost-effective and advanced tools for their technical imaging requirements which help them fuel their business growth."
